GREAT ENGLISH REMEDY THE MOST VALUABLE Spring and Summer Medicine in the World!! DR. HALSEY'S

FOREST WINE. ATRONIZED BY THE NOBILITY AND MEDICAL FACULTY OF ENGLAND, AND ESTREMED

THE MOST EXTRAORDINARY MED-ICINE IN THE WORLD.

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD.

Medicines containing modases or linguorice, like the boasted Sarsaparilias, require many large houtes to produce the dightest change in health. The Forset Wine is altogether a different article. It contains no syrups to give it consistency, but acquires it excellent flavor, and powerful nedicinal properties from the vegetable plants of which it is composed. The Forset Wine combines the virtues of the Wild Cherry, Dundchion, Yellow Dock, and Sarsaparilla! with other valuable plants whose properties are still more effective.

His high concentration renders it one of the most efficient medicines now in use. Sometimes less than a single hottle extores the lingering patient from weak ness, debility, and sicknown, to strong and the room situation, and improves the state of the health. The Forset Wine is recommended, in the strongest terms, for all complaints of the given by the complaints of the plants, Scrofula, King's Every Ulcera, Old Sores, Affections of the Wines, Bishows Affections, Dropsy, Dyspeptia, Loss of Appetite, Januace, Female Complaints, Scrofula, and all Disorders arising from BAD BLOOD and impure habit of the system.

DR. Halsey, Dear Sir.—Having taken your Forest Wine and Fills to remove a disease of the Liver, from which I have suffered severely for upwards of ten years; and having adhered closely to the directions which accompany the medicines, I have recovered my health not withstanding all who knew me thought my case incurable. Previous to taking the Wine and Fills, I had recourse to the best medical treatment, but continued to grow worse to an arming degree. Some of my riceder you were to an arming degree. curable. Previous to taking the Wine and Fills, I had recourse to the best medical treatment, but continued to grow worse to an alarming degree. Some of my friends spoke despairingly of my case, and tried to persuade me from making use of any advertised remedies; and I doubt not, but what there are hunt reds wh are dissuaded from taking your excellent medicines, in consequence of the deception and inefficiency of many advertised remedies put forth by unprincipled men, in flaming advertisements. But, what a pity it is, that the deception used by others, should be the means of dissuading many laboring under disease, from making trial and being cured by your excellent remedies. Humanity speaking, they have saved my life; when I commenced making use of them, I was in a wretched condition, but began to appelience their good effects in less than three days; and in six weeks from the time I purchased the medicines, to the great surprise of all my friends, I was entirely cured, and had increased fifteen pounds, in weight, having taken one box of the Pills, and two hottles of the Wine. Would to God that every poor sufferer would avail himself of the same remedies.

and covered with perspiration, and at times laboring under the delusion that something dreadful was about to
happen to her. By the use of four bottles of the wine,
and a hox of the Pills, she is now in perfect health—
she has regained her flesh and color, and enjoys society
as well as ever.

any mineral poison, but is composed mostly of those Roots, fierbs and Vegetable substances which have a specific indicance upon the lungs and their connected organs. Its immediate upon the lungs and their connected organs. Its immediate Evect is to allay all irritation and gently remove the phiegm and other morbid secretions from the Throat and Air-Passages, thus relieving the Cough, by subduing the affects of the lungs themselves, thereby enabling them more thoroughly to remove from the blood those impurities and diseased particles, which, if retained, do so much mischief in the system, and lays the foundation for incurable CONSUMPTION. It also exerts a decided action upon the skint, and assists nature in expelling through the Exhalents, much of that morbid matter which would otherwise be thrown back upon the Lungs, thus releving them of a part of their work, and rendering the system pure and healthy. When the bercles are forming, it checks their development and further progress; or if diceration has taken place, it assists the lungs in throwing off the corrupted matter, soothes their ritation, mals the ulcerated cavities, and restores them again to healthy action. This medicine, therefore, is not a pallistine merely, which only relieves for the time being, but is a thorough curative, as it strikes at the very root of the disease, and by re noving it, removes at once all its remote and attendant consequences. This is its brown in edi-
